TEL: 360-236-4732

September 14, 2022

Pearl Youth Residence, 1201 S Proctor St, Tacoma, WA. 98405-2047	April Stallings
Agency Name and Address	Administrator

ONGOING - ROUTINE	09/09/2022	JMI03
Inspection Type	Inspection Onsite Dates	Inspector
X2022-502	RTF.FS.61067805	Co-occurring Services, ,
Inspection Number	License Number	RTF Services Types

Please note that the deficiencies/violations/observations noted in this report are not all-inclusive, but rather were deficiencies/violations/observations that were observed or discovered during the on-site inspection.

Deficiency Number and Rule Reference	Observation Findings	**Plan of Correction**
0480 Governance and administration WAC 246-337-045(1)(d)(iii) The licensee must establish a governing body with responsibility for operating and maintaining the RTF. The governing body must provide organizational guidance and oversight to ensure that resources support and staff provides safe and adequate resident care including, but not limited to: (1) Adopting, periodically reviewing, and updating as necessary, policies that: (a) Govern the organization and functions of the RTF including: (iii) Complied with by staff.	This Washington Administrative Code (WAC) is not met as evidenced by: Based on the agency's Policies and Procedure (P&P) review, clinical documentation review, agency internal processes and interview, it was determined the agency **failed to maintain the monitoring** of the agency's compliance with the rules in this chapter, and other state and federal rules and laws that govern agency licensing and certification requirements. Failure to meet the standard of the WAC places clients at risk of not receiving the minimum standard of care. Failure of the Administrator or their designee to maintain monitoring of the agency's Quality Management Plan (QMP) according to WAC may jeopardize the RTF and BHA licenses, may lead to investigation and fines, compromised service processes and potentially places staff at risk for liability	

	claims. Findings included: 1. The agency organizational P&Ps across all sites and services indicate all WAC, RCW, State and Federal regulations will be implemented, monitored, ensured compliance and maintained for WA State Residential Treatment Facility (RTF) 246-337 (to include Food Code 246-215) and Behavioral Health Agency (BHA) 246-341 licensure standards. • It is important to note that the agency has a streamlined process across all site and services/programs yet has displayed inconsistencies of monitoring and ensuring compliance. Forms need to be reviewed for WAC updates to reflect the most current language of 5/25/2021 – example: Individual Rights have the current WAC language, yet the form date is 5/4/2020. Clinical charts are reviewed internally every 2 weeks and quarterly. - A centralized Authentication Sheet was encouraged to identify handwritten initials and signatures that were commonly not legible on all handwritten forms to include the Medication Administration Records (MARs). **WAC Reference** for ensuring the Quality Management Plan (QMP) 246-337-048, 050 and 246-341-0410(4)(g) and legibility 246-337-095(5) and 246-341-0640(1)(f). 2. New **Human Resource** (HR) record keeping platform – *Payroll and Dayforce*. There were areas on the Personnel Sheet that were missing, had overdue components, or noted *"Enrolled or 00/00/0000"*. **WAC Reference** 246-337-045(3)(a)(b), 246-337-050(4) and 246-341-0510(1)(c) – orientation within 90 days of hire, 246-341-0410(4)(e) – up-to-date personnel files. - 08/31/2022 at 12:30 AM During the clinical chart review, Staff B – Human Resource (HR) elaborated on the agency HR restructuring process:	

	a. For all **pending** Agency Affiliated Registrations (CAAR) over 3months, HR has kept record of DOH communications, has a monthly reminder list that is sent to each Program Director. b. **TB screening** history had been managed by HR, during the COVID 19 pandemic TB screening was given to each Program to address/complete for staff and to update HR. 08/01/2022 HR has taken back the gathering/monitoring of TB screening for staff as it was determined the screening process was sporadic due to COVID response took priority. *WAC Reference 246-337-050(7)(j) c. **Newer staff** within the last 18months have delayed training specific to Seclusion/Restraints – 23 staff for Pearl St. The agency has an overview training part of the New Employment Orientation (NEO) process and a specific *Handle with Care* training. Noted staff have had the basic overview, not the specific training – this training is delivered at each program level and assigned by the Program Director who informs HR. This process does not support the agency's identified organizational streamlining for compliance. *WAC Reference 246-337-050(5)(c)(i,ii,iii,iv,v,vi) d. **CPR trainings** are monthly, staff are expected to enroll at the next available date from hire. A CPR training spreadsheet is generated through *Paycom Employee System.* 7 staff for Pearl St. *WAC Reference 246-337-050(5)(d)	
U0155 Food work cards WAC 246-215-02120(1) (1) The PERMIT HOLDER and PERSON IN CHARGE of the FOOD ESTABLISHMENT shall ensure that all FOOD EMPLOYEES Certified on 2/25/2021 Page 37 are in compliance with the	Food handlers' cards are to be **kept current** and renewing valid, inclusive of Washington Administrative Codes (WAC) WAC 246-217 and RCW 69.06 Failure to have valid food handlers' cards may lead to	**9/29/2022** at 7:17 AM email from provider confirmed the 4 expired Food Handlers Cards have been updated with plan to send updated cards to on-site Kitchen Manager and HR.

provisions of chapter 69.06 RCW and chapter 246-217 WAC for obtaining and renewing valid FOOD WORKER CARDS.	increased risk of contamination illnesses, poor food safety regulation and public health risk. Findings include: 1. Observation during the facility walk through, the kitchen Food Handlers' Card binder was not kept current, had expired cards with staff that were no longer employed and not monitored for compliance. Expired cards and formerly employed staff cards were given to Staff A – Quality Improvement & Incident Reporting Associate. • The kitchen manager is newly hired and onboarding to the specifics of their role. • The four expired Food Handlers' Card for N. Cruz - expo 6/5/2022, K. Wade - expo 8/3/2022, M. White-Wofford - expo 7/16/2022 and J. Wiggins - expo 01/16/2022 are not providing kitchen services until renewal per Staff A's email update of 9/9/2022.	

Introduction

We require that you submit a plan of correction for each deficiency listed on the inspection report form. Your plan of correction must be submitted to the DOH within ten business days of receipt of the list of deficiencies.

You are required to respond to the Inspection Report with Noted Deficiencies by submitting a plan of correction (POC). Be sure to refer to the deficiency number. If you include exhibits, identify them and refer to them as such in your POC.

Descriptive Content

Your plan of correction must provide a step-by-step description of the methods to correct each deficient practice to prevent recurrence and provide information that ensures the intent of the regulation is met.

An acceptable plan of correction must contain the following elements:

- The plan of correcting the specific deficiency;
- The procedure for implementing the acceptable plan of correction for the specific deficiency cited;
- The monitoring procedure to ensure that the plan of correction is effective and that specific deficiency cited remains corrected and/or in compliance with the regulatory requirements;
- The title of the person responsible for implementing the acceptable plan of correction.

Simply stating that a deficiency has been "corrected" is not acceptable. If a deficiency has already been corrected, the plan of correction must include the following:

- How the deficiency was corrected,
- The completion date (date the correction was accomplished),
- How the plan of correction will prevent possible recurrence of the deficiency.

Completion Dates

The POC must include a completion date that is realistic and coinciding with the amount of time your facility will need to correct the deficiency. Direct care issues must be corrected immediately and monitored appropriately. Some deficiencies may require a staged plan to accomplish total correction. Deficiencies that require bids, remodeling, replacement of equipment, etc., may need more time to accomplish correction; the target completion date, however, should be within a reasonable and mutually agreeable time-frame.

Continued Monitoring

Each plan of correction must indicate the appropriate person, either by position or title, who will be responsible for monitoring the correction of the deficiency to prevent recurrence.

Checklist:

- Before submitting your plan of correction, please use the checklist below to prevent delays.
- Have you provided a plan of correction for each deficiency listed?
- Does each plan of correction show a completion date of when the deficiency will be corrected?
- Is each plan descriptive as to how the correction will be accomplished?
- Have you indicated what staff position will monitor the correction of each deficiency?
- If you included any attachments, have they been identified with the corresponding deficiency number or identified with the page number to which they are associated?

Your plan of correction will be returned to you for proper completion if not filled out according to these guidelines.

Note: Failure to submit an acceptable plan of correction may result in enforcement action.

Approval of POC

Your submitted POC will be reviewed for adequacy by DOH. If your POC does not adequately address the deficiencies in your inspection report you will be sent a letter detailing why your POC was not accepted.

Questions?

Please review the cited regulation first. If you need clarification, or have questions about deficiencies you must contact the inspector who conducted the onsite inspection, or you may contact the supervisor.
