February 21, 2025

Newport Academy, 3804 Hastings Ave W, Port Townsend, WA. 98368-9642	Michael Tyers
Agency Name and Address	Administrator

ONGOING - ROUTINE	01/29/25	ECR03
Inspection Type	Inspection Onsite Dates	Inspector
X2025-66	RTF.FS.60957241	Co-occurring Services
Inspection Number	License Number	RTF Services Types

Please note that the deficiencies/violations/observations noted in this report are not all-inclusive, but rather were deficiencies/violations/observations that were observed or discovered during the on-site inspection.

During the inspection the following complaints were reviewed: 2025-240.

Deficiency Number and Rule Reference	Observation Findings	Plan of Correction
0780 Management of human resources WAC 246-337-050(7)(d) (7) The licensee shall have written documentation for each staff member including: (d) Current signed job description.	Based on interview, policy and procedure review, and personnel record review, the agency failed to ensure all staff had a signed position description in the personnel records. Failure to ensure a signed position description in the personnel file can lead to missed staff responsibilities and can lead to client harm. Findings included:	0780 Management of human resources WAC 246-337-050(7)(d) Deficiency will be corrected as followed: Human Resources is responsible for implementing this correction. Effective 3/3/2025, Human Resources has confirmed signed position description in staff personnel files. Human Resources will complete monthly audit reports to ensure all new and current employees have

	1. Review of the personnel records for Staff G, Care Coordinator, showed that there was no signed position description in their personnel file. 2. During an interview with Staff I, Human Resources (HR) Generalist, on 01/29/25 at 01:00 PM, they stated, "It looks like we do not have a signed position description." 3. Review of the policies and procedures titled, "Agency Personnel Record Requirements", updated 11/01/23, states the agency will maintain a current, signed job description for all staff.	signed position descriptions in staff files.
0790 Management of human resources WAC 246-337-050(7)(f) (7) The licensee shall have written documentation for each staff member including: (f) Current license, certification, or registration, if applicable.	Based on interview, policy and procedure review, and personnel record review, the agency failed to ensure all staff had a copy of their current credential in the personnel records. Failure to ensure staff are credentialed may lead to poor client outcomes. Findings included: 1. Review of the personnel records for Staff D, Clinical Director, showed there was no record of a current credential in the personnel record. 2. During an interview with Staff I, Human Resources (HR) Generalist, on 01/29/25 at 01:00 PM, they verified there was no record of a current credential in the personnel record and stated, "I am not seeing his most current one in the file." 3. Review of the policies and procedures titled, "Agency Personnel Record Requirements", updated 11/01/23, states the personnel record must have a copy of the staff member's valid current credential issued by the department if they provide clinical services.	0790 Management of human resources WAC 246-337-050(7)(f) Deficiency will be corrected as followed: Human Resources is responsible for implementing this correction. Effective 3/3/2025, Human Resources has confirmed all new and current clinical team members have current credentials in personnel files. Human Resources will complete monthly audit reports to ensure all new and current clinical team members have current credentials in staff personnel files.

0805 Management of human resources WAC 246-337-050(7)(i) (7) The licensee shall have written documentation for each staff member including: (i) Current driver's license, if applicable.	Based on interview and personnel record review, the agency failed to ensure all appropriate staff had current driver's licenses. Failure to ensure a current driver's license may result in unauthorized staff transporting clients. Findings included: 1. Review of the personnel records for Staff D, Clinical Director, Staff G, Care Coordinator, and Staff H, Experiential Therapist, showed they did not have a current driver's license in the personnel file. 2. During an interview with Staff I, Human Resources (HR) Generalist, on 01/29/25 at 01:00 PM, they verified there was no record of a current driver's license in the personnel record.	0805 Management of human resources WAC 246-337-050(7)(i) Deficiency will be corrected as followed: Human resources is responsible for implementing this correction. Human Resources will ensure that all new and current employee files have a copy of the current Driver's License effective 2/11/2025. Human Resources will enter all Driver's License data into employee files where a monthly audit report will be generated. This will ensure monthly auditing of soon to be expired Driver's Licenses and prompt staff to provide up to date information.
2980 Water supply, sewage and waste disposal WAC 246-337-130(2) The licensee shall ensure: (2) Tempered water between one hundred and one hundred twenty degrees Fahrenheit in resident areas.	Based on interview and inspection of the facility, the agency failed to maintain hot water temperatures between 100 and 120-degrees Fahrenheit throughout the facility. Failure to provide proper water temperatures may result in disease transmission for staff and clients. Findings included: 1. During the inspection of the facility, the Reviewer observed that the hot water temperatures did not meet the correct water temperature as evidenced by the following: a. The temperature of Hemlock's shower was 80.2 degrees F.	2980 Water supply, sewage and waste disposal WAC 246-337-130(2) Deficiency will be corrected as followed: Facilities Manager is responsible for implementing this correction. As of 3/3/2025, setting on the hot water heater has been increased. Hemlock shower currently reading 104.2 degrees. Facilities Manager will re-test water temperature every two weeks over the next 30 days and make additional adjustments as needed. Facilities Manager will consider adding pipe insulation if water temperature drops.

	2. During an interview with Staff C, Compliance Specialist, on 01/29/25 at 11:00 AM, they verified the below standard water temperature.	

Introduction
We require that you submit a plan of correction for each deficiency listed on the inspection report form. Your plan of correction must be submitted to the DOH within ten business days of receipt of the list of deficiencies.

You are required to respond to the Inspection Report with Noted Deficiencies by submitting a plan of correction (POC). Be sure to refer to the deficiency number. If you include exhibits, identify them and refer to them as such in your POC.

Descriptive Content
Your plan of correction must provide a step-by-step description of the methods to correct each deficient practice to prevent recurrence and provide information that ensures the intent of the regulation is met.

An acceptable plan of correction must contain the following elements:

- The plan of correcting the specific deficiency;
- The procedure for implementing the acceptable plan of correction for the specific deficiency cited;
- The monitoring procedure to ensure that the plan of correction is effective and that specific deficiency cited remains corrected and/or in compliance with the regulatory requirements;
- The title of the person responsible for implementing the acceptable plan of correction.

Simply stating that a deficiency has been "corrected" is not acceptable. If a deficiency has already been corrected, the plan of correction must include the following:

- How the deficiency was corrected,
- The completion date (date the correction was accomplished),
- How the plan of correction will prevent possible recurrence of the deficiency.

Completion Dates
The POC must include a completion date that is realistic and coinciding with the amount of time your facility will need to correct the deficiency. Direct care issues must be corrected immediately and monitored appropriately. Some deficiencies may require a staged plan to accomplish total correction. Deficiencies that require bids, remodeling, replacement of equipment, etc., may need more time to accomplish correction; the target completion date, however, should be within a reasonable and mutually agreeable time-frame.

Continued Monitoring
Each plan of correction must indicate the appropriate person, either by position or title, who will be responsible for monitoring the correction of the deficiency to prevent recurrence.

Checklist:

- Before submitting your plan of correction, please use the checklist below to prevent delays.
- Have you provided a plan of correction for each deficiency listed?
- Does each plan of correction show a completion date of when the deficiency will be corrected?
- Is each plan descriptive as to how the correction will be accomplished?
- Have you indicated what staff position will monitor the correction of each deficiency?
- If you included any attachments, have they been identified with the corresponding deficiency number or identified with the page number to which they are associated?

Your plan of correction will be returned to you for proper completion if not filled out according to these guidelines.

Note: Failure to submit an acceptable plan of correction may result in enforcement action.

Approval of POC

Your submitted POC will be reviewed for adequacy by DOH. If your POC does not adequately address the deficiencies in your inspection report you will be sent a letter detailing why your POC was not accepted.

Questions?

Please review the cited regulation first. If you need clarification, or have questions about deficiencies you must contact the inspector who conducted the onsite inspection, or you may contact the supervisor.

Re: Exam Number: X2025-66
License Number: RTF.FS.60957241
Approved Plan of Correction
Date(s) of Inspection: 01/29/25

Dear Administrator:

This letter is to inform you that after careful review of the Plan of Correction (POC) you submitted for the exam recently conducted at your facility, the Department has determined that the POC is approved.

Based on the scope and severity of the deficiencies listed in your statement of deficiency report, the Department **will not** conduct an announced follow-up compliance visit to verify that all deficiencies have been corrected.
