Licensing received a provider reported incident on 2/06/2025 for ELS Case #027357.

Licensing Specialist Horton met with Ms. Jlynn Perkins to review camera footage.

During camera footage review (no audio), Licensing Specialist Horton observed residents were on the Bass Unit. This incident occurred at 8:27 p.m., ratio 2:8.

It appeared the residents were watching tv, walking around, and talking with each other. Licensing observed two residents talking to each other. A resident was observed walking away and standing in front of the television with his hands and head on the television screen. It appeared that the resident with his hands and head on the television screen was moving his hands on the television screen as if he was beating on the television.

Licensing observed a peer walking up to the television screen where the resident was who had his head and hands on the television. The peer was observed hitting the resident in the face. Licensing observed the resident fall to the floor after being hit.

Licensing Specialist observed a staff member place the peer that attacked the resident in a hold. The peer was able to get out of the hold and began attacking the staff member. The staff member removed his arms away from the peer as additional staff entered the room.

The Licensing Specialist was unable to determine if the staff member grabbed the resident's legs. The incident happened very quickly and there were multiple staff members observed around the peer obstructing the camera view.

Facility informed Licensing that staff member has been terminated.
