Observations
Staff and youth were observed at the programs during the unannounced review. The youth that were at the programs, appeared to be at ease and comfortable in the environment. All areas of the program where youth had access were observed to be well kept, clean and mostly in good repair. The living area where the floor and carpet meet are a potential tripping hazard. I was informed that a work order is in to repair it. The program does have new shelving in the kitchen freezer. Program has a plan to renovate youth bathrooms. No time frame: but the program is looking forward to having the bathrooms renovated.
