Licensed Child Caring Agency 6 Month Review
Residential Care

Licensee: Jasper Mountain – Crystal Creek
Interim Executive Director: Nicole Roberts
Program Director: Sarah Huff

Board Chairperson: Frank Papagani
Date of site visit: 8/23/23
Licensing Coordinator: Mary Torres

Interviews, Observations: Construction of Crystal Creek was completed in 2020 and was initially inspected by Licensing on 9/1/20. A 6-month temporary license was granted on 11/30/20 for Crystal Creek. After being open for only a few months and prior to expiration of its' 6-month temporary license, the program decided to briefly close their newest building due to ongoing staffing shortages. In the summer of 2023, the program resubmitted all necessary paperwork to re-open and relicense Crystal Creek.

A tour of the building was led by the program's newest Residential Assistant dedicated to Crystal Creek. The building remains in excellent physical condition. There are currently 6 youth at Crystal Creek. The program is only able to house 6 youth currently due to staffing levels. When more staff are hired, Crystal Creek will be able to serve more youth. The youth are currently on summer break. On campus school will resume in September. All instructors are hired internally by Jasper Mountain. There are six teachers in total. Three on the Jasper Mountain campus and three at the Safe Center. Youth currently in program have reportedly all done well. One youth is scheduled to return home in October and another youth will follow soon after. The building recently added door codes to their main entrance. This additional safety measure was approved in writing by the Fire Marshal's office. There is a nearby forest fire that the program is monitoring. Evacuation packs are at the ready should the campus move to a Level II evacuation notice.

Three youth were interviewed during this site visit. All three youth had previously resided in another one of the program's buildings before moving into Crystal Creek in April and May of this year. Youth report feeling safe in Crystal Creek. Two youth share feeling unsafe when peers have escalated. In both situations, staff reportedly handled the situation well, moving youth to another area and moving the escalated youth outside. Crystal Creek was developed as a step down/transitional program for youth who are ready to return home or transition to lower-level care such as foster care. When asked how staff support youth at Crystal Creek, one youth stated that staff will provide "space" either outside or on the bench located downstairs. Another youth reports not needing support since arriving at Crystal Creek and that seeing an assigned therapist twice a week meets the youth's need for support currently. The food is described as "good" and "healthy." Youth are able to help out in the kitchen if it's part of their assigned chore. When asked about available snacks, the youth report that during summer, snacks are not offered as mealtimes are modified during the summer months. Residents sleep in so meals start later in the day (8:45 am, 1:00 pm, 6:00 pm). Contact with family is described as frequent. Contact occurs via phone within the milieu or over zoom during family therapy sessions. Strengths of Crystal Creek include time spent

with friends, playing video games, watching television, baking with staff and the location of the program as youth have access to berries and fruit and can watch deer and turkeys on campus. There is a summer camping trip that youth are looking forward to.

Licensing also met with various staff members during the site visit discussing youth and personnel files and the distribution of incident reports. The interim Executive Director was also met with, updating Licensing on staffing changes. The program has plans to place cameras near the horse barn and outside the Safe Center. There have been instances of people coming onto campus without staff knowledge or approval.

Corrective Actions and Timeframes: Please submit the following to verify compliance.

Within **30 days of receipt** of this report **Jasper Mountain – Crystal Creek** must submit a letter of verification indicating the agency is in compliance with the specific rules cited above and describing how compliance will be maintained going forward. Along with the letter of verification, the agency must submit any and all specific documentation requested in the body of this report. The letter of verification and any additional requested documents can be emailed directly to Mary Torres at mary.torres@odhsoha.oregon.gov.

Changes in License: Crystal Creek will be added to the program's existing CCA license and placed on their 2-year license renewal rotation. The building's newest application submitted to Licensing reflects a lower maximum capacity than initially requested when the building first opened.

(2) Written emergency plan that includes:	X			
(a) Identifying the types of emergencies most likely to happen where the residential care agency is located	X			
(b) Identifying a place to meet for each type of emergency identified		X		The submitted ER plan indicates that the program has established a meeting place predetermined outside of the building, but it is not identified in the plan. **CORRECTIVE ACTION:** Document the specific predetermined place where youth and staff are to meet at the time of a simulated or actual emergency within the ER plan.

(c) Identifying an alternate shelter if necessary		X		An identified alternate shelter for either campus is not documented in the submitted ER plan. **CORRECTIVE ACTION:** Document the identified alternate shelter for each campus in the ER plan.
(d) Ensuring access to necessary medications or medical equipment		X		There is no plan to ensure access to youths' necessary medication or medical equipment during an emergency. **CORRECITVE ACTION:** Implement a plan to ensure access to youths' necessary medication or medical equipment during an emergency and/or as a result of an evacuation.
(e) How to help each child in care recover after a disaster		X		The submitted ER plan does not speak as to how the program plans to help each child in care recover after a disaster. **CORRECTIVE ACTION:** Develop a process and document how the program plans to help each child in care recover after a disaster in the ER plan.
(3) Telephone numbers for local police, fire department, poison control, after hours medical advice and other appropriate emergency numbers must be posted near all telephones.	X			
(4) Operative flashlights sufficient in number must be readily available to the staff in case of emergency.	X			
(5)(a) Evacuation drill occurs monthly under varying conditions, is retained 2 years, and contains: (A) identify of person conducting drill (B) date & time (C) notification method (D) staff participating (E) # of children & staff evacuated (F) special conditions simulated (G) problems encountered (H) time to complete		X		The program provided documentation verifying the completion of monthly evacuation drills since Crystal Creek's re opening in April of 2023. However, *special conditions simulated* on each drill is marked as "N/A." **CORRECTIVE ACTION:** The program will implement a process where this section, special conditions simulated, is used as designed. Each drill will be in response to a simulated situation (examples: flooding, kitchen fire, blocked exit, injured staff or any other plausible extraordinary situation that may present itself and require evacuation).
