Interview Summary
2 youth were interviewed during the site visit. Both youth reported liking Madrona Recovery better then other programs they had been at previously. Both youth reported feeling safe in the program. One youth described Madrona Recovery as “just ok,” the food being ok, and wishing the beds were more comfortable and that they had the ability to have community time outside the program. The other youth reported that the food is good, staff are nice and supportive and that they feel like they are having the most success with their sobriety they have ever experienced. One of the youth reported a recent negative interaction with 1 specific staff but reported that the rest of the program staff were very supportive and understanding and they felt the situation was handled well by the program. Both youth were aware of their discharge plans and tentative discharge dates.

Observations
Facility was clean and in good repair. Random employee training files were reviewed, and trainings had been completed in a timely manner. Youth interviews did not note any concerns.
