Interview Summary
I met Terri Brabo, the new Residential Director, in person for the first time and she assisted with the electronic client record review. Brian Hodges, program manager, accompanied me on the facility tour. Two youth were individually interviewed, ages 17 and 16, with approximate stays of one month and both report this is their first program, and they feel safe here. They described on-site recreation, activities, and outings. Food is ok, except it gets boring having cereal for breakfast every morning. Relationships with peers and dorm room sharing is going ok, except some youth are messier than others. They have regular phone calls with family and have options for privacy, however getting privacy is inconsistent among staff. One youth reports that the program is helping them with coping mechanisms and likes having peer support groups. Some staff are trusting, including their therapist. They report that the agency could do better with ensuring consistent communication among staff across all shifts, as well as staff demonstrating taking accountability when they mess up, essentially to model what is being taught to the youth.

Observations
The milieu areas were clean, tidy and in good repair. The kitchen was clean and food preparation was occurring along with the smell of freshly baked bread. Adequate food supply was observed in food storage areas. Youth dorm rooms had varying levels of cleanliness/messiness typical for this age range, some more tidy than others, some with extra piles of clothes on the floor; however, there were no odors or evidence of unhygienic conditions. Bathrooms were clean and odor free.

Corrective Actions and Timeframes: Please submit the following to verify compliance.

Within 45 days of receipt of this report **Rimrock Trails Treatment Services** must submit a letter of verification indicating the agency is in compliance with the specific rules cited above and describing how compliance will be maintained going forward. Along with the letter of verification, the agency must submit any and all specific documentation requested in the body of this report. The letter of verification and any additional requested documents can be emailed directly to **Robin DuVal at Robin.M.DuVal@odhsoha.oregon.gov.**
