Oregon Department of Human Services

Licensed Child Caring Agency Unannounced Site Visit Report
Residential Care

Licensee: St Mary's Home for Boys
Executive Director: Francis Maher
Program Director(s): Cindy Krieger and John Stacy

Date of Unannounced: August 14, 2024
Licensing Coordinator: Robin DuVal

Other Regulatory or Accrediting Agencies: Oregon Department of Human Services (ODHS) Child Welfare Treatment Services and Oregon Youth Authority (OYA). Tracie Stone from OYA was present for this unannounced.

Purpose: Per OAR 419-400-0240 (1)(b) Children's Care Licensing is required to perform at least one unannounced site visit a year where children in care reside.

Previous Findings **Unannounced Site Visit 12-08-2023**	**Repeat Findings** **Further Action Needed**	**Comments**
Residential Care Safety 419-470-0080(5)(a) Evacuation drill occurs monthly under varying conditions, is retained 2 years and contains: **(A) identify of person conducting drill** (B) date & time **(C) notification method** **(D) staff participating** **(E) # of children & staff evacuated** **(F) special conditions simulated** (G) problems encountered (H) time to complete November evacuation drill logs were observed. Three cottages used the current updated form; however, one cottage used an outdated form. One cottage drill log was missing an entry for time of drill. **Corrective Action:** The agency shall ensure all cottages are utilizing the updated form and ensure that all required elements are documented. **This is a repeat finding.**	**Yes☐ No✓**	Records were reviewed, and this requirement was met. *There's no further corrective action needed at this time.*

Medication 419-470-0100(10) Written record of the administration of medication includes: (a) name (b) description (c) dates and times (d) missed doses (e) medication disposed (f) method of administration (g) ID of person administering (h) possible adverse reactions (i) medication taken outside facility 1)Medication administration logs were observed to have no white-out or correction tape. No further corrective action needed at this time. 2)Possible adverse reactions (i.e., side effects) for each prescribed medication were not included with each child's medication record. Some records had a list if there was a medication change, but not for all medications per child. **Corrective Action:** The agency shall ensure that each prescribed medication for each child in care shall be listed. The agency utilizes a binder with a tab separator for each child's record and can be stored along with the medication administration log. **This is a repeat finding.**	**Yes☐ No✓**	Records were reviewed, and this requirement was met. *There's no further corrective action needed at this time.*
Ongoing Training 419-470-0120 (2)(a) Environmental emergencies The agency lacked documentation to demonstrate employees' training occurred. **Corrective Action:** The agency shall ensure all forms and tracking mechanisms are updated to include this specific training and appropriately documented. **This is a repeat finding.**	**Yes☐ No✓**	Records were reviewed, and this requirement was met. *There's no further corrective action needed at this time.*
Ongoing Training 419-470-0120 (2)(d) Agency's policy on suicide prevention and risk assessment tool. The agency lacked documentation to demonstrate employees' training occurred. **Corrective Action:** The agency shall ensure all forms and tracking mechanisms are updated to include this specific training and appropriately documented. **This is a repeat finding.**	**Yes☐ No✓**	Records were reviewed, and this requirement was met. *There's no further corrective action needed at this time.*

New Findings from Site Visit	Corrective Actions / Comments
Medication 419-470-0100(10) Written record of the administration of medication includes: (a) name (b) description (c) dates and times (d) missed doses (e) medication disposed (f) method of administration (g) ID of person administering (h) possible adverse reactions (i) medication taken outside facility Blanks were observed on the Medication Administration Records (MARs) with no corresponding notation. This was observed more significantly in Myer cottage.	**Corrective Action:** The agency shall ensure medication errors, or anomalies in documentation, are documented by adding a notation to the medication administration records (MARs). While this was more significantly observed in Meyer cottage, the agency shall ensure this practice is occurring in all the living units with their respective MAR documentation. This finding has been intermittently occurring over recent years. The agency shall provide an administrative oversight plan and timeline that includes, at minimum: • Review current policies and procedures. • Survey staff and managers for input on any changes. • Identify any needed improvements to policy, procedure or practice. • Update policies, procedures and practice where needed. • Communicate and implement improvements. • Identify who will be directly responsible for ensuring ongoing compliance.
Room and Space Requirements 419-470-0030(8) Separate storage areas are provided for food, kitchen supplies, utensils, clean linens, soiled linens and clothing, cleaning supplies and equip, poisons, chemicals, outdoor recreational and maintenance equipment. (Hazardous materials are properly labeled, in original container and locked). Bickmore Hall: In the open and unlocked laundry room, an opened bottle of liquid laundry detergent was not kept in the locked storage.	**Corrective Action:** The agency shall ensure laundry detergent is inaccessible to children in care by utilizing the established locked cabinets in the laundry room. This was also a finding from June 2023; the agency corrected the finding by installing a locking mechanism on the cabinets, and the locked cabinets were observed during the December 2023 unannounced visit, resulting in a corrected finding with no further action at that time.
Physical Plan Requirements 419-470-0020(2) (c) All areas of buildings where children in care are present must be kept clean and in good repair. • Some bedroom door handles were not functioning to easily open the door. • Meyer Cottage: the North Hall bathroom stall doors were damaged and one anchor point cover was off which exposing screws and sharp metal.	**Corrective Actions:** The agency shall ensure these repairs occur timely and submit photos when corrected.

Interview Summary
Two youth were individually interviewed, ages 13 and 16, with stays in the program of 6 months and 11 months respectively. Both gave examples of how the agency is helping them, that they feel safe in this place with these people, staff are trusting, and they feel listened to during treatment meetings. The peer community is good, food is good and plentiful, school is good, but now on summer break, and there's been no issues getting medications as prescribed. Activities on campus and outings were described. Phone calls to approved persons on their contact sheet are offered twice daily. They report the agency does well at addressing past trauma. When asked for one of their favorite things about being in this program, one shared that it's less restrictive than being at home, and the other identified their treatment team as their favorite thing. The areas to improve on are staff consistency in "fairness" among peers, and having "so many rules", although this youth shared they understand the rules and why they're in place. Both youth were pleasant and respectful to talk with.

Observations
The walk-through consisted of all four living units, including a random selection of youth bedrooms per hall, living unit bathrooms, milieus, and isolation/seclusion rooms. The facility was clean and in good repair, except noted above in new findings, and free from odor. Interactions with staff were welcoming, and youth were doing various in-door activities. Youth bedrooms in the three cottages were clean and tidy with individualized décor and free from odor. Unlike previous visits, to note, Bickmore Hall youth bedrooms were messier than average but not to an unsanitary level.

Corrective Actions and Timeframes: Please submit the following to verify compliance.

Within 45 days of receipt of this report **St. Mary's Home for Boys** must submit a letter of verification indicating the agency is in compliance with the specific rules cited above and describing how compliance will be maintained going forward. Along with the letter of verification, the agency must submit any and all specific documentation requested in the body of this report. The letter of verification and any additional requested documents are to be emailed directly to Robin DuVal at robin.m.duval@odhsoha.oregon.gov.
