Agency had only conducted 1 drill as they believed the requirement to be quarterly. This has been clarified and Agency confirms they will be conducted monthly moving forward. • Program completed fire drills for August and September. However,	**Yes✓ No☐**	Program documentation around fire drills was more consistent then the previous review, however the April fire drill documentation could not be located during the site visit.

documentation for the October and November fire drills could not be located.		
Personnel Files 419-400-0120 (1)(b) & (3)(b) reference checks completed and documented • Reference checks were reported as completed however documentation of reference checks was not being maintained in files • Reviewed documentation included names and contact information for reference checks. However, there was no documentation confirming references were checked.	**Yes☐ No✓**	Documentation reviewed indicated reference checks are being completed.
Children's Records **Health Services** 419-470-0090 (g) Have a physical examination within the first 60 days after admission of a child in care. Documentation of a physical examination having occurred within the calendar year will meet this requirement. • Physical examinations, or documentation of physical examinations within the calendar year are not documented in the youth files. • 1 reviewed client file did not have a record of physical examinations being completed.	**Yes☐ No✓**	Documentation reviewed indicated that physical examinations are being completed.
Information about Children in Care 419-400-0190(1) Summary sheet contains the following: (a)The name, gender, date of birth, religious preference, and previous address • Some information contained in youth files, but not all required data is clearly available • Summary sheets could not be located in client files	**Yes✓ No☐**	Program has greatly improved their documentation process and summary sheets are detailed and easily located. However, there was not a field on the form for Religious Preferences.

Information about Children in Care 419-400-0190(1) Summary sheet contains the following: (b) Name and location of previous and current school • School information was not located in youth files. • Summary sheets could not be located in client files	**Yes☐ No✓**	Program has greatly improved their documentation process and summary sheets are detailed and easily located.

(B) The child in care's legal guardian, if different than the parents, and a copy of the document that provides for his or her authority over the *child in care*. (C) Other persons significant to child (D) Other professionals to be involved in service planning (if applicable) • This documentation was not clearly available in youth files. • Summary sheets could not be located in client files	**Yes☐ No✓**	Program has greatly improved their documentation process and summary sheets are detailed and easily located.
Records Relating to Restraint & Involuntary Seclusion 419-400-0180(13)(e) Each child caring agency shall provide notice regarding how to access the quarterly reports to the parents or guardians of children in care in the program. The child caring agency shall provide the notice upon the child in care's admission and at least two times each year thereafter. • Notices regarding quarterly restraint reporting were not included in youth files. • Intake documentation did not have information about how to access quarterly restraint reports.	**Yes✓ No☐**	Program documentation did not clearly identify how notifications about quarterly restraints are being made to parents and guardians

Records and Documentation 419-400-0140 (3) Records must be uniform in organization, readily identifiable and accessible, current and complete, and contain all of the information required of the child-careing agency by rule in OAR Chapter 419, division 400 • Program records were not organized or consistently filed, including several stacks of loose documents in the Director's office, incomplete folders, and documents that could not be located when requested due to the disorganization. The program currently keeps some records physically and reportedly has other records kept electronically, though it was not clear which laptop computer had which records. The program must establish a consistent method of storing records and having them easily and readily accessible in one place.	**Yes☐ No✓**	Program has made considerable improvement in their record keeping practices since the last review.

New Findings from Site Visit	**Comments**
419-470-0020(c) – All areas of buildings where children in care are present must be kept clean and in good repair. Major appliances and heating, ventilation, plumbing, and electrical systems must be functional and in good repair.	The living areas downstairs, the kitchen, and client bedrooms were all well maintained. However, the upstairs bathroom, hallway, and staircase were in need of cleaning. Specifically, the upstairs bathroom toilet and shower fans needed extra cleaning, and a towel bar that needed repairing.

Interview Summary
2 youth and one staff were interviewed as a part of the unannounced site visit. One youth has been at the program for 1.5 months. He was previously Kairos and Turning Point and liked them. This program is the best he's been to, he likes the freedom here, staff aren't on his back all the time. Staff are available when he needs them. He graduated high school and is currently job searching. He feels safe here and gets along with the other clients. He has no favorite staff. Residents cook when they want to, staff takes the residents one time a week. He has contact with his family and talks to them every other day. He thinks he'll be here until October and then hopes to get his own apartment. If he could change anything, he would like walks to be 25 minutes instead of 15 minutes. The second youth has been at the program for 5 days. It's good so far, he's slowly gaining privileges. He feels safe here and gets along with the other residents. He had a job interview at Walmart. The food is good, he's a vegetarian and they accommodate his needs. No one has put their hands on him since being at the program and there is nothing he thinks needs to change. Interviewed staff has worked at the program for 1 year. He previously worked at McLaren. Orientation trainings included expectations of staff, transportation, he met PO's. He had CPR training in 2022. His supervisors are Kathy and Jaylynn, he feels supported by them. Nothing needs to change at this program, it operates like a family. Residents fit into the program; the program does not change to fit them. Ongoing trainings have been about meds, food prep, supervision. Training goes on 24/7 here.

Observations

A facility walkthrough was conducted as a part of the unannounced site visit. The living areas where clients spend most of their time (the downstairs) was immaculately clean and well organized. The client bedrooms that were observed were also clean and well organized. The upstairs hallway, upstairs bathroom, and the stairs were in need of cleaning and sweeping, and minor repair. A hole was noted in the ceiling downstairs below the upstairs bathroom, but the program explained it was the result of a water leak, and a plumber had just fixed the leak, and drywall repair was already scheduled.

The program has also made significant improvement in its record keeping of staff and client files. Files were much more organized, and it was easier to locate required documentation during the review.

The program is in the process of getting ready to apply for a second program site as they continue to grow and expand.
