REVISED: June 11, 2024

Woodridge Northeast, LLC
600 N 7Th Street
West Memphis, AR 72301-3235

The Division of Provider Services and Quality Assurance (DPSQA) of the Arkansas Department of Human Services has contracted with Arkansas Foundation for Medical Care (AFMC) to perform Inspections of Care (IOC) for Inpatient Psychiatric Services for Under 21. The Medicaid Manual for Inpatient Psychiatric Services for Under Age 21 was used in the completion of this report.

Observations and any deficiencies noted are listed below for the inspection conducted at the following service site on the following date:

Woodridge Northeast, LLC
Provider Medicaid ID: [REDACTED]
Onsite Inspection Date: May 09, 2024
Onsite Inspection Time: 9:16 AM

A summary of the inspection and any deficiencies noted are outlined below.

The provider must submit a Corrective Action Plan (CAP) designed to correct any deficiency noted in the written report of the IOC. Accordingly, you must complete and submit to AFMC a Corrective Action Plan for each deficiency noted. The Corrective Action Plan must state with specificity the:

- (a) Corrective action to be taken.
- (b) Person(s) responsible for implementing and maintaining the corrective action; and
- (c) Completion date or anticipated completion date for each corrective action.

The CAP must be completed within 30 calendar days of the date of the email notice of the IOC report. Please follow the link provided in the email notice to submit either a Reconsideration or CAP for the inspection, all via AccessPoint.

The contractor (AFMC) will:

- (a) Review the Corrective Action Plan.
- (b) Determine whether the Corrective Action Plan is sufficient to credibly assure future compliance; and
- (c) Provide the Corrective Action Plan to the Division of Provider Services and Quality Assurance (DPSQA).

Please see § 160 of the Medicaid Manual for an explanation of your rights to administrative reconsideration and appeal. Additionally, the imposition of this Corrective Action Plan does not prevent the Department of Human Services from prescribing additional remedial actions as may be necessary.

Inspection of Care Summary

Facility Tour:

Upon arrival to the facility, AFMC staff was promptly greeted at the locked entrance by a Woodridge Northeast, LLC receptionist in the main lobby. AFMC staff signed in on the visitor log were immediately taken to a conference room where they were met by the Chief Executive Officer and the Director of Quality and Risk Management. AFMC staff was given the completed and signed consent form listing approval for access to the AFMC portal. Facility staff were given the Document Request Form and AFMC staff discussed the requirements for the Inspection of Care.

A tour of the facility was completed with the Director of Nursing. The tour included three acute inpatient units, seclusion rooms, medication room, gymnasium, cafeteria, two outside courtyard areas, and several classrooms. The facility environment was extremely clean, well-organized, and appeared to be in good repair. There were no immediate issues noted during the facility tour. Staff were able to answer questions regarding the facility.

Facility Review – Policies and Procedures:

Upon review of the site's policies, procedures, and certification requirements, the following deficiencies were noted:

Regulation	Deficiency Statement	Reviewer Notes
Medicaid IP Sec. 2: 215.220, 218.000 42 CFR: 441.156	There is no documentation that all direct care personnel hold current licenses, as required by their position and profession and/or licensing authority.	During the review of personnel records, it was noted that one employee had a provisional license Master of Social Work that expired in June of 2009.

Personnel Records – Licenses, Certifications, Training:

There was a total of twenty-six personnel records reviewed, nine (27%) professional staff and seventeen (25%) paraprofessional staff. During the review of the personnel records, the following deficiencies were noted:

Personnel Record Number	Rule	Credential Validated	Outcome	Reviewer Notes
SR016818	215.220, 218.000	Professional License or Certificate - IP Acute	Failed	The provider uploaded college degrees; however, evidence of a professional licenses was not provided.

Observations:

AFMC staff reviewed the final document request form with the Chief Executive Office, the Director of Quality and Risk Management, and the Director of Human Resources at the completion of the on-site Inspection of Care. The provider signed the acknowledgement of manual requirements that were made available in the provider's policy and procedures. AFMC staff explained that these findings were preliminary and there was still an off-site portion to be completed.

Clinical Summary

As a part of the Quality-of-Care survey of the IOC, an active Fee for Service (FFS) Medicaid client list was requested, client and/or guardian interviews were conducted, and a clinical record review was completed. The following is a summary of findings and noted deficiencies.

Client/Guardian Interviews:

There was no active FFS Medicaid clients currently admitted at the time of IOC. Therefore, no client interviews were conducted.

Program Activity/Service Milieu Observation:

Staff and clients were observed throughout the facility in the classroom setting on the school unit and in organized group activities in one of the outside courtyards. Clients were engaged in schoolwork and activities. Staff were calmly interacting with clients and providing a therapeutic environment that was conducive for learning and treatment therapies.

Medication Pass:

No active FFS Medicaid clients received medications during a medication pass while AFMC staff was onsite. Due to the observation of non-Medicaid clients not being compliant with the HIPAA minimal necessary rule, no medication pass was observed. AFMC RN visited with the facility medication nurse who showed AFMC RN the facility policies and procedures regarding medication administration, narcotic count/reconciliation/handling, and medication discrepancies.

The facility nurse was able to verbalize the step-by-step process of medication delivery including the demonstration of the five rights of medication administration, documentation of medication delivery, verification of client taking medication including mouth/cheek checks, and how clients are educated about each medication. The facility nurse also verbalized the process utilized when a client refuses medication. Tour of medication room completed no discrepancies with medication storage, cleanliness of medication room, and knowledge of medication dispensing found.

Clinical Record Review Deficiencies:

There was no active FFS Medicaid clients currently admitted at the time of IOC. Therefore, no clinical records reviews were conducted.

Corrective Action Plan:

The CAP must be completed within 30 calendar days of the date of the email notice of the IOC reports. Additionally, any findings that were noted in any Health and Safety Inspection(s), which are governed by certification rules and requirements, are shared with DPSQA and may result in other remedial actions, by DPSQA, if warranted.
