**Report Description:** [REDACTED] had been a resident at Millcreek Behavioral Health. He is now back in [REDACTED] at [REDACTED]. [REDACTED] has been overmedicated multiple times by the facility. [REDACTED] is on [REDACTED]. It is believed that [REDACTED] was overmedicated on his [REDACTED]. When staff arrived to get [REDACTED] could not stay awake and appeared to be in some type of (over) medicated induced condition. Upon arriving at [REDACTED], he was almost unconscious. [REDACTED] had trouble waking him up-, but he was more coherent the next morning. He was not given his medications the previous night. [REDACTED] staff took [REDACTED] to [REDACTED] to have him medically cleared. His presentation and behavior were concerning. He had significantly difficulties walking and communicating with staff. When staff return from the hospital, they informed us that [REDACTED] did not test positive for any illegal drugs. The doctor at the hospital informed staff that [REDACTED] was presenting the way he was because of his prescription medications. [REDACTED] received a copy of the bloodwork today and according to the bloodwork [REDACTED] [REDACTED]. On Friday March 7th he was transported to [REDACTED] for their walk-in clinic to be evaluated and assigned to a psychiatrist. [REDACTED] was assigned to [REDACTED] for management of his psychotropic medication. He has his initial appointment on Tuesday [REDACTED] at 12:00 pm. He has additionally, been assigned to [REDACTED] for case management at [REDACTED]. He saw [REDACTED] for a wellness examination. He had bloodwork while at [REDACTED]. We are still waiting for the results. I spoke with [REDACTED] about the bloodwork for the hospital being [REDACTED] and he stated that he did not know how the [REDACTED] got into his system. Unfortunately, the bloodwork does not have the amount of [REDACTED] in his system. He is functioning some better than when he first arrived at [REDACTED].
