Case Number: 030767

Date of Incident: 6/26/2025

Date Received: 6/27/2025

Facility Name: Woodridge Behavioral Care LLC

Report Description: [REDACTED] has resided at Perimeter Behavioral Health in Springdale for six months. Twice in the last week, [REDACTED] has been able to overdose. 06/20/25 [REDACTED] overdosed on nine [REDACTED] pills in her bedroom and took them. 06/26/25 AV found eight orange pills in a cup in the corner of the dayroom. The residents are aware of a blind spot in the camera. [REDACTED] also swallowed a piece of plastic from an Ensure bottle and found a piece of glass that a former resident hid. A staff member, [REDACTED] witnessed the swallowing of glass. [REDACTED] was placed in a hold because of it. [REDACTED] advised that she is getting the medication because another person is cheeking (this means that the other person is hiding the medication in their cheek and not swallowing it), the medication, and then providing it to [REDACTED]. It is a concern that the staff has no idea how this continues to happen. It is reported that no one on the unit takes orange pills. [REDACTED] may be getting them from another unit. There is also concerns that [REDACTED] is lying about the medication. Urine screening came back positive for [REDACTED] Antidepressants. After reviewing the [REDACTED] meds list, she is not prescribed the drugs. [REDACTED] arrived at the [REDACTED] with the following symptoms: Dizziness, nausea, and drowsiness. [REDACTED] was also having bouts of tachycardia with no prior history of cardiac events. There are concerns about a lack of supervision due to prior history.
