Notice of Serious Incident

Case Number: 032021

Date of Incident: 08/11/2025

Date Received: 08/12/2025

Facility Name: United Methodist Children's Home Little Rock Campus

Incident Type: DPSQA - Incident & Accident - OLTC

Case Status: Under Review

DPSQA - Incident & Accident - OLTC

Report Description: On 8/11/25, [REDACTED] was participating in a basketball game in the gym with several peers. During play, [REDACTED] (client) fouled [REDACTED]. In response, [REDACTED] struck [REDACTED] in the face with a closed fist. Both clients were evaluated by the nurse following the incident. [REDACTED] reported pain in his right hand. An X-ray was performed on 8/11/2025, which revealed no acute fracture.

-304	Continued From page 3 considered an emergency. (4) The Office of Long-Term Care must be contacted for prior authorization of the overbed, and all authorizations must be in writing. Authority. Arkansas Code §§ 20-76-201 et seq., and 25-10-129. This ELEMENT is not met as evidenced by: Based on video review and interview, the facility failed to maintain staffing to meet the needs for 1 (Client #1) who was on one-to-one observations of three clients reviewed. A review of the video surveillance on 08/18/2025 at 9:30 AM was conducted with the Director of the Residential Treatment Center (DRTC) for the hallway where Client #1 punched the wall and injured their hand on 08/11/2025. During the observation of the video footage at 06:15:38 PM Client #1 walked out of the line of sight from Behavioral Instructor (BI) #1 who was assigned as Client #1's one to one staff. At 06:15:47 Client #1 struck the wall with a closed fist. At 06:16:30, BI #3 entered the hall escorting another student and did not engage or address Client #1. BI #3 walked through the hall at 06:16:39 again and did not address Client #1. At 06:18:41 Client #1 punched the concrete wall with their right hand in a closed fist. At 06:19:09 Client #1 turned toward the door and struck the door with their right hand. At 06:33:19 BI #3 spoke to Client #1 and led him out of sight of the video. On 08/18/2025 at 9:45 AM during an interview while observing the video the DRTC stated the staff were not where they needed to be to observe the incident and that they should have been in the hall with the client. The DRTC further	-304	-304 On 8/27/25, a Lead Behavioral Instructor Meeting was held. During this meeting, Lead BIs were reminded of the Observation Rounds Policy, with specific emphasis on the requirement for 1:1 supervision. Each Lead BI was provided with a quick reference handout to share and review with their assigned BIs on shift. All Behavioral Instructors (Bis) were provided with a copy of the in-service material regarding the procedures of 1:1 supervision on 8/30/25, 9/2/25, and 9/3/25. Attendance was documented and filed.

-304	Continued From page 4 stated there was nothing to prevent staff from entering the hall when the client moved as ratio would have been maintained. On 08/18/2025 at 3:49 PM, during an interview BI #1 stated they were assigned as the one-to-one staff for Client #1. BI#1 stated one to one with a client means they are together throughout the shift. A follow up interview was conducted on 08/18/2025 at 5:37 PM with BI#1 who stated the reason they did not follow Client #1 into the hallway was because there were 17 other clients. On 08/18/2025 at 5:26 PM, during an interview the Program Consultant (PC) stated Client #1 returned from an acute hospital stay and remained on one-to-one precautions for continued suicidal ideation. The PC stated when a client is one to one, goes to an acute stay, returns to one to one and is left out of the care of staff for approximately fourteen minutes they have failed to ensure their safety because staff should always be with them. The PC stated that all staff are trained on one-to-one precaution and what that means during on-the-job training prior to working directly with clients. The PC stated this training is called Observation Rounds and culminates in a test which is maintained in employee files. A review of the Observation Rounds training dated 10/16/2025 was reviewed in BH #1's file and reflected 100%. A review of the Observation Records dated 08/05/2025 through 08/11/2025 indicated Client #1 was placed on one-to-one observation on 08/05/2025. Client #1 went to an acute stay on 08/06/2025 and returned to the facility on 08/10/2025. Client #1 returned with the following	-304	-304 The Special Precaution Policy, which includes clear expectations for 1:1 supervision, has been posted in BI areas and by the time clock for daily visibility. Staffing Assignments: Daily staffing ratio sheets now clearly indicate which staff are responsible for 1:1 supervision, including coverage during breaks and shift changes. Supervisor Oversight: Shift supervisors are required to verify that 1:1 staff are present and actively engaged with the assigned client during shift rounds. Video Review Audits: Random weekly audits of video footage are conducted by the Unit Consultants when there are 1:1 and/or LOS (line of sight) precautions to ensure staff are maintaining line-of-sight supervision for clients on 1:1 status. Findings are maintained in a binder and are reviewed by the Program Director weekly.	9/4/2025
