Narrative:

Time of visit: 11:30 am to 2:00 pm

Census: 51

Licensing received a complaint on 4/23/2025 for ELS Case #029270.

On 4/28/2025, Licensing met with Ms. Scealita Drennon to review camera footage for this complaint. Due to the internet being down, licensing had to reschedule the visit. Ms. Drennon was informed to let licensing know once the internet was restored.

Program Coordinator spoke with Mr. Immanuel Morris regarding this complaint. Licensing informed Mr. Morris that camera footage needed to be reviewed, the resident's file for review, and the name of the resident who needed to be interviewed.

Resident Interview

Resident reported being at the facility since February 2025. He resides on the 400 Hall. Resident informed licensing that he has had bruises from previous restraints from staff. Resident pulled up his sleeve on his left arm to show where a previous bruise was but indicated that the bruise had healed. Resident informed licensing that all his injuries happen off camera.

Resident informed licensing that he was last in a PRT (restraint) a week ago. When asked why resident stated, "I don't know why." Resident informed licensing that staff puts him in restraints all the time and the nurses just watch. After the restraints, the nurses only ask questions, and they do not examine him. Per resident, staff abuses him when he is placed in restraints.

Licensing inquired again why the resident would be placed in restraints. Resident stated, "for fighting and being out of designated area." Per resident, when he gets mad, he walks out of his designated area without permission. Licensing then inquired about what happened during his restraints resident reported resisting a little bit while in restraints.

4/21/2025 6:48 pm to 6:57 pm (physical altercation and property destruction)

Licensing reviewed camera footage of a restraint the resident was placed in on 4/21/2025. This restraint happened on 400 Hall. The resident was observed walking the hall ratio 2:1. The other residents were observed in the dayroom. The resident was observed walking to the end of the hall and kicking on the door. The resident appeared upset.

Two staff members were observed placing the resident in an escort away from the door into the resident's bedroom. Once the resident was placed in his bedroom, the staff members let the resident go. One staff member stood at the doorway and the other staff member was advising the other residents to go back to the dayroom or their bedrooms.

~~The resident bypassed the staff member at the door and was going toward the other residents before being placed in a restraint. Staff members were observed struggling due to the resident resisting the restraint.~~

Eventually the staff members were able to get the resident in a sitting position on the floor. Another staff member appeared in camera footage guiding the residents to the dayroom while unlocking the doors to their bedroom. This staff member appeared to be communicating on a walkie.

Licensing observed some residents walking to their bedrooms and attempted to make physical contact with the resident while he was in a restraint. The residents were redirected away from the resident. The nurse was observed entering the camera view. The Assistant Program Coordinator entered the hall and relieved a female staff member from the restraint. The female staff member assisted the other staff member with opening the doors for the residents. The nurse was still observing the restraint, ratio 3:1 to include the nurse.

Resident is released from restraint at 6:57 pm. Resident was observed getting up from the floor with no issues. Resident appeared upset and was red in the face.

4/22/2025 10:04 am to 10:13 am (property destruction)

Licensing reviewed camera footage of a restraint the resident was placed in on 4/22/2025. This restraint happened in a classroom. Resident was off camera but licensing observed four (4) staff members in the classroom in front of where the resident was. Per Mr. Morris, the other residents had already been removed from the classroom.

Licensing observed the resident being guided into camera view by the staff members into a restraint. Licensing was unable to observe what the resident was doing before being placed in a restraint but was informed property destruction. Licensing observed the resident what appeared to be resisting the restraint. The nurse appeared in the classroom. Staff members were observed tapping out to switch with another staff member three (3) times. This was a standing restraint. During this time the ratio was 5:1. Three (3) staff members participated in the restraint and two (2) were observing the restraint.

At 10:13 am the resident was released from the restraint. The resident was observed walking to a desk with no issues and sitting down.

Licensing reviewed nurse's notes, physician orders, and emergency safety intervention justification packets. All restraints had nurse's notes, packets, and signed physician orders. Resident was placed in 11 restraints from 4/8/2025 to 4/22/2025. Per physician orders, the resident was placed in restraints for self-harm and other behaviors on 4/10/2025, 4/14/2025, and 4/17/2025.

Injuries were noted on the following dates:

- **4/8/2025** minor bruise to right lower side of hand
- **4/8/2025** two small superficial scratches to right upper arm

Licensing did not observe any violations during the camera review. Licensing reviewed documentation for this complaint and no discrepancies were observed. This complaint has been **unfounded** by licensing.

Licensing complaint #028770 is UNFOUNDED for violations of Minimum Licensing Standards

· **109.1.g** Unprofessional conduct in the practice of child welfare activities shall include without limitation:
(g) Engaging in behavior that could be viewed as sexual, dangerous, exploitative, or physically harmful to children.

· **905.4.g** The following disciplinary actions shall not be used: (g) Physical injury or threat of bodily harm;

· **905.9** Physical restraints shall be performed using minimal force and time necessary. Physical restraint means the application of physical force without the use of any device, for the purpose of restraining the free movement of a resident's body. Briefly holding a child without undue force in order to calm or comfort them or holding a hand to safely escort a child from one area to another, is not considered a physical restraint.

***** Pursuant to A.C.A. § 9-24-406(e) (3-4): If you believe that the Department's notice of noncompliance is in error, you may ask for reconsideration. The request for reconsideration must be in writing and delivered to the Department by certified mail within twenty (20) business days of receipt of the notice of noncompliance. The request must specify the parts of the notice that are alleged to be in error, explain why you believe those parts are in error, and include documentation to support the allegation of error. Once received the Department shall issue a decision on your request within twenty (20) days after receipt of the request.
