Licensing received a complaint on 5/19/2025 for ELS Case #029861.

On 5/21/2025, Licensing interviewed two residents, the resident and a peer. The residents were roommates before this complaint. The residents were at school when Licensing arrived. The residents were brought to the administration building one at a time for their interview. Licensing completed the interview in the facility's chapel.

Residents' Interviews:

Resident 1– Licensing explained the reason for speaking with the resident. The resident immediately became defensive and stated she was tired of talking about the situation because nothing was going to be done. Licensing inquired what resident meant by her statement. Resident stated, "I just want this to be over with." Licensing asked if the facility did anything regarding her complaint. Resident informed Licensing that her and her roommate are no longer roommates and are on peer restriction.

Licensing asked resident if she was willing to talk and she stated, "yes." Resident reported that her roommate had touched her inappropriately. Per resident, her roommate touched her on her boob, kissed her, gave her a lap dance, and laid on her bed. Resident reported they have been placed on opposite ends of the hall. When asked about a timeframe of the alleged incident, resident reported the incident happened on Sunday before hygiene and no staff member was monitoring the hall.

Resident 2– Resident informed Licensing that she was unaware of what was going on. Resident reported that her and Resident 1 were roommates. Per Resident 2, they had some disagreements but nothing physical only verbal altercations. Resident 2 described their relationship as casual. Resident 2 stated that they were no longer roommates.

Resident 2 informed Licensing that nothing happened. Resident 2 expressed that she feels that staff made up accusations against her out of retaliation due to cursing at staff last week. Resident stated during her second week at the facility, she overheard staff telling her peers that she was drama. Licensing inquired if she was on precautions. Per resident, she was placed on restrictions about a week ago for sharing clothes with a peer.

Camera Footage Review 5/22/2025

Residents were observed completing hygiene, making phone calls, participating in rec time, and doing art. Licensing reviewed camera footage from 7:01 pm to 7:30 pm with Mr. Anthony White.

7:01 pm – Licensing observed residents going in and out of their bedrooms and bathrooms. Per facility, the residents were completing hygiene. Licensing observed a female staff member standing in the hall monitoring the residents.

7:15 pm – The traffic in the hall slowed down due to the majority of the residents had completed hygiene. Some residents were observed in the milieu making phone calls, and/or participating in rec time. Residents were observed coming out of the bathroom, going to their bedroom, and entering the milieu to put up their hygiene products.

7:30 pm – A total of three (3) staff members was observed in different areas of the house (monitoring phone calls, rec time and/or hygiene). One staff member was observed sitting in the entrance leading to the bedroom hall for the residents that were completing hygiene.

Licensing did not observe Resident 2 enter the bedroom while Resident 1 was going in and out of the bedroom. Staff were observed either on the hallway or monitoring the hall from the milieu.

Facility reported that room checks were completed on 5/14/2025 and contraband was found and confiscated from the residents' bedroom. Resident 2 informed the facility that the contraband was not her's and that staff should talk with Resident 1. Pictures of the contraband was provided to Licensing. Mr. White informed Licensing that he was unaware of any verbal altercations between the two (2) residents.

Licensing interviewed residents and reviewed camera footage. This complaint has been **UNFOUNDED** by Licensing.

Licensing complaint case 029861 is UNFOUNDED for violation of Minimum Licensing Standard:

907.2 Childcare staff shall be responsible for providing the level of supervision, care, and treatment that is necessary to ensure the safety and well-being of each child at the facility, taking into account the child's age, individual differences and abilities, surrounding circumstances, hazards, and risks.
