--	---------------------------------------	--------------------------	---------------------------------	-----------------

On May 23, 2025, I, Officer Thomason was dispatched to Forrest City Medical Center in reference to a 13-year-old who needed to file a report about an incident that happened at 1521 Albert St. in Forrest City. I arrived at Forrest City Medical Center at 9:26PM where contact was made with [REDACTED]. [REDACTED] works for Perimeter Behavioral Health Located at 1521 Albert St. and he began explaining what led up to him bringing 13-year-old [REDACTED] to the Medical Center. I then spoke to [REDACTED] who stated that earlier today one of the employees stepped on a bug and it upset him because he likes looking at bugs. [REDACTED] stated that he was already frustrated because of some of the kids at the facility and he stated to the employees "Fuck y'all" and went into his room and slammed the door. [REDACTED] stated that [REDACTED] came into his room and began yelling at him "Don't slam that mother fucking door." [REDACTED] stated that he responded, "I won't slam that mother fucking door." [REDACTED] stated that [REDACTED] then grabbed him behind his arms to put him in a "PRT" which is a physical restraint and then slammed him against the cubby's that they put their clothes in. [REDACTED] stated that [REDACTED] then stated to him "Now I'm going to take you into the hallway where everyone can see you." After being taken into the hallway and put on the wall by [REDACTED], [REDACTED] stated that [REDACTED] grabbed his upper arms and picked him up off the floor while still holding him against the wall and squeezing him arms as hard as he could and that he now has bruises from it. Pictures were taken of [REDACTED] injuries. I then spoke to [REDACTED] and asked if they had already taken x-rays of [REDACTED] arm and if they knew if his arm was broken or not and she stated yes, [REDACTED] arm is broken. [REDACTED] stated that the radial bone and the ulna bone were both broken.
