Narrative:

Facility visited from 8:45AM-10:15AM in response to licensing complaint Case#029183. Census: 13.

Resident 1 reported that Staff 1 pushed his head into a pillow causing him to bump his head on the wall. Initially, Resident 1 reported he didn't know when this happened. This is alleged to have occurred at the PRTF building on campus. The PRTF building consists of one large room. All bedroom doors are directly connected to the large room. These doors are usually left open.

Background checks and completed training for Staff 1 was provided to licensing and reviewed. Staff witness statements, nursing notes, hourly checks, therapy notes, and restraint packets were also provided to licensing and reviewed. There was one restraint that occurred on 3/19/25 that involved Staff 1 or Resident 1. No other restraints involved Staff 1. All seven (7) staff members' witness statements stated that they have never saw Staff 1 display inappropriate behavior towards any clients.

Resident 1 interviewed today and initially reported that he did not know when this incident happened. When asked to do his best to remember, he stated "a couple of months ago". He reported that this happened in his bedroom and there were no other staff or residents around.

Restraint packets reviewed and it was determined that one restraint involved Staff 1 and Resident 1 on 3/19/25. Also involved in this incident were Staff 2 and Staff 3. Staff/resident ratio at the time of incident 6:12.

Staff 2 contacted via phone today and stated that at no time did Staff 1 push Resident 1's head down in any way. Staff 2 stated she was present during the entire hold. Staff 2 stated that Staff 1 never used, nor has she ever witnessed use of excessive physical force towards a resident. She stated at no time was Staff 1 ever alone with Resident 1 adding that this never happens due to staff asking for assistance from other staff during resident behaviors.

Staff 3 present today and interviewed. He stated that at no time did he observe Staff 1 push Resident 1's head down. He stated he was present during the entire incident. He stated that at no time was Staff 1 alone with Resident 1. He stated he has never seen Staff 1 use excessive physical force with a resident.

Nursing note post-assessment for 3/19/25 reviewed which indicates that no injuries were present for Resident 1 except raised area on his head from previous incident.

Case#029183 has been investigated and determined to be UNFOUNDEDas evidenced by:

One restraint involved Staff 1 and Resident 1. This restraint was on 3/19/25, which somewhat fits Resident 1's report of "a couple months ago". Nursing note shows no new injuries subsequent to the restraint. Both staff present the entire time and involved in restraint report that at no time did they witness Staff 1 do anything physically excessive or inappropriate during this incident, nor have they ever. At no time during this incident was Staff 1 alone with Resident 1. Seven (7) staff witness statements all stated that they have never seen Staff 1 do anything inappropriate with residents.

******* Pursuant to A.C.A. § 9-24-406(e)(3-4): If you believe that the Department's notice of noncompliance is in error, you may ask for reconsideration. The request for reconsideration must be in**

writing and delivered to the Department by certified mail within twenty (20) business days of receipt of the notice of noncompliance. The request must specify the parts of the notice that are alleged to be in error, explain why you believe those parts are in error, and include documentation to support the allegation of error. Once received the Department shall issue a decision on your request within twenty (20) days after receipt of the request.
