Regulation Not Applicable:

Regulations Not Correctable:

Narrative:

Licensing Specialist arrived at the facility at 0945

Current census: 15

The licensing specialist visited the facility to interview residents regarding case #029355.

The interview with Resident 1 is as follows:

"I have been here about three months. All the staff are nice to me, and I really enjoy it here." Resident 1 said that there's been some verbal bullying from other residents, but that staff handled it quickly. He said, "Therapy is good here, I told my therapist about something that happened to me, I can't remember if it was a dream or if it really happened. It was of [Resident 2], and he touched me in my private area."

Resident 1 goes on to say that this incident, whether it was a dream or not, made him feel unsafe. Resident 1 says that the facility handled it swiftly and that they always put him and Resident 2 on a 10-foot precaution and put them on separate units. The precautions made Resident 1 feel safe again.

The interview with Resident 2 is as follows:

"I've been here since November of 2024. I don't feel like this place is helping, I don't like the program." Resident states he has had issues with staff but refused to get into any specifics, stating that none of them were even that big of a deal anyways. The resident also said he enjoys fighting with the other residents here and the only good thing about this place is the food.

When asked about if he had heard anything about any incidents at the facility, Resident 2 said: "Yeah I did hear something about it but I'm not all about that kind of stuff." He refused to speak on the subject or anything similar. Kept repeating he wanted to leave.

The specialist was told by the Director that, per policy, bed checks are conducted every 15 minutes.

The Precaution order of 10ft restriction is written in the client's charts as well as on the daily roll call sheet. The roll call sheet is provided to all behavioral instructors before they begin their shift, so they are fully aware of all the residents' safety precautions. The roll-call sheet is also available online for all staff and updated daily.

Resident 1 and Resident 2 were roommates for the time of January 29th-February 6th. No incidents between the two of them were reported during this time.

The following Minimum Licensing Regulations were reviewed:

907.2- "Child caring staff shall be responsible for providing the level of supervision, care, and treatment necessary to ensure the safety and well-being of each child at the facility, taking into account the child's age, individual differences and abilities, surrounding circumstances, hazards and risks."

Licensing found no violations to the Minimum Licensing Standards. This complaint is UNFOUNDED.

******* Pursuant to A.C.A. § 9-24-406(e) (3-4): If you believe that the Department's notice of noncompliance is in error, you may ask for reconsideration. The request for reconsideration must be in**

writing and delivered to the Department by certified mail within twenty (20) business days of receipt of the notice of noncompliance. The request must specify the parts of the notice that are alleged to be in error, explain why you believe those parts are in error, and include documentation to support the allegation of error. Once received the Department shall issue a decision on your request within twenty (20) days after receipt of the request.
